# Product Catalog 2025/2026

# About us

UPM Adhesive Materials provides high-performance, innovative self-adhesive products, including label materials, graphics solutions, and specialty tapes, as well as reliable services close to customers. At our factory in Hagenow, Germany, we produce a large variety of sticky notes and related self-adhesive, paper-based products. We are one of the largest internationally operating manufacturers of sticky notes with more than 30 years of experience and long-standing customers on all continents.

UPM Adhesive Materials is part of UPM, a material solutions company, renewing products and entire value chains with an extensive portfolio of renewable fibers, advanced materials, decarbonization solutions, and communication papers. EcoVadis has recognised UPM with a platinum score based on the company's sustainability performance in the categories Environment, Labour and human rights, Ethics and Sustainable procurement..

## UPM Protect

We are passionate about paper-based products and continually work on new solutions for our customers. Our commitment to quality begins with the careful testing and selection of paper and other raw materials. Our water-based and solvent-free sticky notes adhesive is exclusively produced in-house and continually tested in our laboratory. Comprehensive quality control is maintained throughout the whole production process.

# FSC™ Certification

All of our UPM Protect 50 and UPM Protect 90 products are made from FSC™-certified paper (FSC C003094). The Forest Stewardship Council™ (FSC) defines sustainable forest management standards that are based on agreed principles and supported by environmental, social, and economic stakeholders. FSC certification means that:

- the FSC™-certified material is traced and credibly used in accordance with the FSC's chain of custody requirements.
- by choosing our FSC™-certified sticky notes, you support responsible forest management.

# Solvent-free adhesives

All our UPM Protect products are coated with solvent-free adhesives. Solvent-free adhesives use less energy and other resources during manufacturing compared to solvent adhesives. They are also free from hazardous air pollutants which pose a risk to human health and the environment. Our solvent-free adhesives are continually tested in our own laboratory to create products with optimal adhesion.

# Made in Germany

All of our UPM Protect products are proudly made in Germany at our factory in Hagenow. Local production allows us to maintain strict quality control and meet high environmental standards. This ensures that every product we deliver is reliable and built to perform.

Our assortment is constantly being improved and expanded. We reserve the right to make changes in the design or materials, as well as to make any colour changes and variations in size. Subject to change without notice.

# UPM Protect

Our sturdy masking paper UPM Protect is ideally suited for surface protection during renovation work, all kinds of DIY projects and creative activities. The back of the paper is fully coated with a removable and repositionable adhesive that sticks reliably to many different surfaces, e.g. flooring, heaters, windowsills, handrails and furniture. It is adjustable at any time and can easily be removed without leaving any residues, even from sensitive surfaces. Available in several common sizes.

UPM Protect 50 and UPM Protect 90 are recyclable in a standard recycling mill (tested acc. Cepi Recyclability Laboratory Test Method V2), making its disposal not only simple, but also cost-efficient. All UPM Protect 50 and UPM Protect 90 products are FSC™-certified (FSC C003094).

The tear-resistant UPM Protect 60+ is coated with a special topcoat that is impermeable to water and other liquids and makes the product also suitable for direct coating with paint or varnish.

- Easy, time-saving application
- Universally applicable, sticks on many different surfaces
- Very good adhesion, adjustable at any time
- Easily removable and repositionable without any residues
- Fully coated on the back with a solvent-free adhesive
- Available in common sizes
- FSC™-certified (UPM Protect 50 / UPM Protect 90)
- Made in Germany
- Recyclable (UPM Protect 50 / UPM Protect 90)
- Impermeable to water and other liquids (UPM Protect 60+)
